Welcome

The Northeast Wisconsin Chapter of IFMA was chartered in 1992 with only 33 members. Since then our membership has **tripled** and represents facility managers from all facility types – corporate, education, healthcare, manufacturing, public utilities, and government. We help our members stay current on trends in facility management and give them opportunities to network with service providers. We do this by:

- Holding monthly meetings from September to June
- Distributing a bi-monthly newsletter
- Touring area facilities
- Holding networking events
- Participating in the statewide Tri-Chapter Symposium

Chapter Mission Statement

The Northeast Wisconsin IFMA Chapter is an Association of Facility Management Professionals with the common goal of advancing their profession and promoting individual career development through education, networking, and information-sharing.
